High School Outreach Program
Fall 2008**

Global Connect High School Internship (2 Units Pass/No Pass Credit)
(Education Minors can enroll for a grade.)

The political, economic, and social foundations of the 20th century are rapidly being redefined and replaced by new realities. Media and technology herald in a massive amount of information from all corners of the globe “assuming” that viewers/listeners have a working knowledge geography, contemporary academic terminology, economic principles, and political orientation.

In Fall of 2002 the School of Social Sciences began connecting its academic and human capital with selected underrepresented schools within Orange County. Through 24 weeks of in-class lectures & interactive lessons we introduced students to the concepts and realities of global markets, global trends (immigration, wealth distribution, technology), borderless social issues (literacy, hunger, AIDS), international organizations (the World Bank, the United Nations) and the multi-dimensional themes of globalization.

A critical component of Global Connect is the active involvement of the undergraduate interns. Interns are trained and serve as the primary mentors to the secondary school students both academically and socially. Interns are required to attend weekly curriculum reviews (Mondays from 6-7pm) and to intern at the assigned site schools on a weekly basis. Join Global Connect and make a difference!
