RESEARCH EXPERIENCE

University of Michigan, Ann Arbor, MI

Survey Research Center, Summer Intern - Program in Survey Methodology

May-August 2012

Title: *Disclosure and Quality of Answers in Text and Voice Interviews on iPhones*

- Collaborated on an ongoing study of smart phones -- in particular iPhones -- for collecting survey data in which data quality across four modes is compared: voice interviews conducted by a human interviewer, SMS text interviews conducted by a human interviewer, Speech IVR (automated voice interviews with speech recognition), and automated SMS text interviews.
- Generated audio recordings of telephone human interviews
- Generated transcripts of audio recordings
- Coded transcripts to be analyzed by a tool called Sequence Viewer.
- The main goal is to see how the interaction differs across modes and how this might help explain differences in answers to the same questions across the modes.
